

Homework Week 3

Make a list of the chores you currently have your children doing. Are they doing them well? If not, do they need additional training?

Decide on 1-3 things you can do to make work easier for your children (example: lowering closet rods).

Homework Week 3 - continued

If you hire out house or yard work, calculate how much you spend per year. Talk to your family about that dollar amount. Make a wish list of other ways you might like to spend your money and post it somewhere visible. Don't fire the housekeeper (unless you decide you really want to). Just let the thought of other ways that money could be spent percolate with your family.
